ABOUT DIGITALTRADE.LTD

LEARN HOW IT ALL STARTED

digitaltrade.ltd is an investment establishment, digitaltrade.ltd is an investment platform originally, was transformed to a global enterprise which will allow multiple investors to invest and transact simultaneously and to benefit from us just like every other local investors have done over the years. We are a team of highly effective financial experts who have years of experience in the high yield investment field. Up to now, the company have recorded a good results in both trading and financing. digitaltrade.ltd was established in California, USA, in 2005. Since then, we have evolved into one of the largest financial derivatives companies worldwide, with a current paid-up capital of over \$322 million.

INVEST LIKE DIGITALTRADE.LTD'S TOP INVESTORS

Replicate the investment moves of other traders in real time, automatically. Social trading can be extremely beneficial when it comes to trading financial markets.

We put your investments in new highly remunerative innovative projects, which offers great returns along. Today our company has a professional team to develop a business..

WHAT IS FOREX?

Forex is the largest financial market in the world with a daily turnover of approximately \$6.6 Trillion. It operates through a global network of banks, companies and individuals who constantly buy

and sell currencies from each other. The Foreign Exchange market has no physical location and operates 24 hours a day. digitaltrade.ltd offers Forex major, cross and exotic pairs to trade in the Forex markets with deep liquidity. Benefit from the best trading tools and cutting-edge MetaTrader 4 and MetaTrader 5 trading platforms, available on all our accounts.

ONLINE TRADING

You can trade currencies online through brokers. With a broker like digitaltrade.ltd, you can trade currencies online and take advantage of the constantly fluctuating exchange rates. You can buy and sell different currencies and make a profit as the exchange rates change. Trading Forex online with a broker has many benefits. You can trade Forex from anywhere that has an Internet connection.

TRADING WITH LEVERAGE

Leverage is using a small amount of money to control a large amount of currency. Most Forex traders and investors buy and sell currency pairs using leverage. The leverage associated with currency pairs is one of the biggest benefits of the forex markets, but also one of the biggest risks. Leverage gives traders and investors the potential to make large profits or large losses. But, if investors manage risk and limit leverage, they could capture the benefits of forex investing, including the ability to trade 24 hours a day and capitalize on different market trends. Leverage works by using a deposit, known as margin, to provide you with increased exposure to an underlying asset.

EARN LIKE TOP TRADERS

Social trading can be extremely beneficial when it comes to trading financial markets. Experienced traders can earn additional income by having followers on our platform that replicate their trading strategy. On top of their own trading profits, they can receive a commission from the followers that are replicating their trades.

Beginners can mimic the trades of more experienced traders, having the chance to learn and benefit from their success. They only have to choose their favorite trader to copy on our platform and automatically copy their trades on our platform.

- Copy successful traders from around the world
- Hassle-free investing service & portfolio management
- Highly rated 24/7 customer service
- Globally regulated & licensed

ADVANTAGES OF SOCIAL TRADING WITH DIGITALTRADE.LTD

Social trading has become one of the most in-demand services in the trading industry. It can be highly beneficial to get started in the financial markets, along with many other advantages.

LEARN WHILE YOU TRADE

With Social trading, beginners can simultaneously earn while they learn in the financial markets by following more experienced traders through our platform. They can earn profits while replicating their trading strategy and positions, getting faster information about market movements.

SAVING TIME

Trades are completely automated, meaning users can reduce the time they spend in front of a screen. Additionally, copy traders will save time to learn as they are gaining knowledge from the decisions of more experienced traders.

DIVERSIFICATION

Social trading helps to diversify an investment portfolio. Rather than focusing only on a specific instrument, social traders can reduce their risk by copying the trades of multiple traders that are trading other asset classes. All our products are available on our social trading platform.

BUILDING A COMMUNITY

Just like a social network, social trading is accessible to anyone with an Internet connection. Traders can share their ideas, information, and news while entering into a variety of potential collaborations with other traders across the globe.

TRANSPARENCY

digitaltrade.ltd's Social trading platform provides a great deal of transparency. Traders can see exactly how other traders are performing and how much profit they are making. Users have access to our Leaderboard, where we rank our top traders based on their performance. Copy traders can choose which traders to select depending on the publicly displayed statistics. At the same time, the traders that gain followers will earn a commission for allowing others to copy their trades.

WHY DIGITALTRADE.LTD

Since our inception, we have successfully stamped our authority in the world of trading. Along the way, we have pioneered and shaped the foreign exchange industry and continue to create exemplary products, services, and trading platforms.

HEAVILY REGULATED ACROSS 5 CONTINENTS

Closely supervised by over 10+ financial regulators worldwide across various jurisdictions, guaranteeing investor protection. Companies regulated by ASIC, AUSTRAC, BAFIN, CIMA, ESCA, FSC, FMA, MAS, TFG and VFSC. * pertains exclusively to certain regulated asset management products

PAID-UP CAPITAL OF OVER US\$ 322 MILLION

Due to our accumulated paid-up capital, we are globally recognized as one of the largest online financial derivatives providers.

FULL ECN MODEL WITH SPREADS STARTING FROM 0.0* PIPS

We follow a pure Non-Dealing Desk ECN trading structure with direct access to over 20 interbank trading prices without any conflict of interest.

THE HIGHEST LEVEL OF LEVERAGE UP TO 500:1

We provide one of the highest levels of leverage in the market, helping traders to multiply their profits. We offer Forex, Metals, Commodities, Shares, Indices, and Crypto.

EXPLORE OPTIONS TRADING

HOW TO TRADE OPTIONS IN FOUR STEPS

1

Investment objectives

This usually includes income, growth, capital preservation or speculation.

2

Trading experience

The broker will want to know your knowledge of investing, how long you've been trading stocks or options, how many trades you make per year and the size of your trades.

3

Personal financial

information Have on hand your liquid net worth (or investments easily sold for cash), annual income, total net worth and employment information.

4

The types of options you want to trade

For instance, calls, puts or spreads. And whether they are covered or naked. The seller or writer of options has an obligation to deliver the underlying stock if the option is exercised. If the writer also owns the underlying stock, the option position is covered. If the option position is left unprotected, it's naked.

DIGITALTRADE.LTD ESTABLISHED IN 2005

9. GLOBAL PRESENCE IN LEADING FINANCIAL HUBS

We serve an international demographic of clients in collaboration with affiliates from our 20+ offices located within the financial centers of the world.

DEDICATED CUSTOMER SERVICE

IT and operational support including service desk, onboarding, configuration, and cash management.

Sales and market support including educational materials, videos, tutorials and seminars.

Several funding methods including: Visa, Mastercard, Neteller, Skrill, and Crypto.

Real-time online financial news in multiple languages.

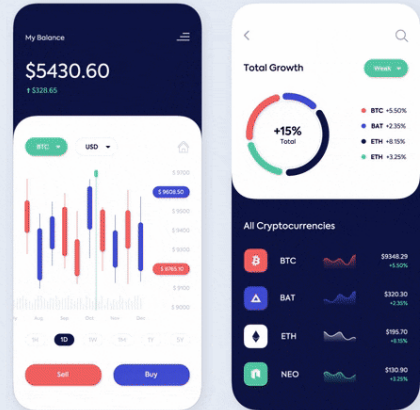

Around the clock, quick account opening and funding available.

Regulatory and corporate support.

USING SUPPORT AND RESISTANCE

RESISTANCE IN TRADING

Support and resistance are key concepts that help traders understand, analyze and act on chart patterns in the financial markets. Support describes a price level where a downtrend pauses due to demand for an asset increasing, while resistance refers to a level where an uptrend reverses as a sell-off happens. Forex support and resistance allows FX traders and investors to better understand where to enter and exit trades, reduce their risk exposure and benefit from a favorable risk to reward ratio.

Dow Jones Forecast Largely Unchanged After Fed Minutes Despite Losses

The Dow Jones dipped slightly following the release of FOMC meeting minutes Wednesday afternoon. In the transcript it was revealed Fed officials have pondered yield curve control as a possible policy option. While gold prices dropped and the US Dollar spiked, equity markets suffered only minor losses. To be sure, the underlying tailwind behind stocks remains intact after the Fed announced large scale asset purchases are officially part of the conventional monetary policy toolkit.

FEATURES

BUSINESS ANALYSIS

A complete overview on every Bitcoin security, with live quotes, main figures, detailed reports, data sheets and analyst's recommendations.

STOCK MARKET EXCHANGE MARKET

Instead of speculating and gambling, a young investor should look to invest in companies that have higher risk but greater upside potential over the long term. A young investor is at an advantage in his or her investing life. Holding the level of wealth constant, an investor's age affects how much risk he or she can take on. So, a young investor can seek out bigger returns by taking bigger risks. This may seem like an argument for a young investor to speculate, but it is not.

No other binary options broker has ever introduced a standard stock market option associated with your investment . Now you won't have to use different monitors in order to be able to follow several charts and not to miss the right moment to execute a trade. It has also become a lot more convenient to follow the price of an asset in different time frames using slow and fast indicators. All this makes trading with Our platform even more professional.

TRADE WITH CONFIDENCE

Trade on platforms designed to meet the demands of currency traders. Our suite of trading platforms has been custom built to deliver maximum performance, flexibility and speed. You'll benefit from sophisticated trading features, professional charting tools, integrated market insights and more.

- Costs associated with trading forex
- Targeted recommendations
- Quality and Value
- Highest Standards
- On Time and on Budget

TRANSPARENT, COMPETITIVE PRICING

Get the most out of every trade with our clear, competitive pricing. No complicated schemes, no small print

QUALITY EXECUTION ON EVERY TRADE

Many brokers claim to have superior execution, but do they have the numbers to back it up? We do.

OPPORTUNITY FOR PRICE IMPROVEMENT ON LIMIT ORDERS

When the market moves in your favor, our trading technology automatically passes along the savings by executing your trade at a better price.
